PROJECTS

Convention Planner - MERN [↗](#)

- Convention Planner is a flexible event organizing tool. Which helps to create and schedule events more easily. And have features like predicting budget and the time needed to start the background work.

Covid Helper - Flask [↗](#)

- COVID Helper is a web app that helps users find their risk of getting infected and the severeness of the infection based on their geographical, social, and health history data.

Premiere bank - Nodejs [↗](#)

- Premiere bank is a website that allows users to simplify and streamline their banking experience. The site provides the user a simplified UI in contrast to the banking websites which we know today which contains a lot of complex and difficult to navigate user interfaces.

Whatsapp Clone - React [↗](#)

- A real-time messaging application. It's been designed and developed using react and MongoDB. This application has a user interface that is similar to WhatsApp.

Mini Microservice App - Nodejs [↗](#)

- This mini-app is a perfect example of how quickly a complex application can be created in the most modern development methods. This app consists of three parts. One would be a newsfeed section for different users. One would be a comment moderation service. Lastly, it would be a comment section for users to engage in conversations.

Automobile Management System - Nodejs [↗](#)

- This is a full implementation of automobile management. This application lets dealers order the manufacturing parts from a distributor. This also has a feature that confirms shipping by scanning a QR code.

CensorUS - Javascript [↗](#)

- Censorus is an extension that blocks out all the haters! It does this by censoring all profanity with pizzas, rainbows, and Blahajs on social networking sites

Meetings API - Golang [↗](#)

- Meetings API is a simple API for managing and scheduling meetings. It provides a list of all meetings in a range of dates, a list of meetings for a participant, the ability to create non-overlapping meetings, and an array of other APIs.

SKILLS

Data structures and Algorithms
